

Europe and the EU Going Forward

“Europe is the field for the education of the world in the ideas of a true world unity and for the wise presentation of the Plan, from that continent can the inspiration go forth to the East and the West”.

From the title page arise a few questions:

- 1) In our present historical moment, what kind of example is Europe setting for the world?
- 2) Who is educating whom in the ideas of true world unity and the wise presentation of the Plan?
- 3) What is actually meant by 'Europe'?

BACKGROUND

- 1) The importance of cycles
- 2) The importance of geography
- 3) The importance of cultures
- 4) The importance of history
- 5) The astrological connections
- 6) The ray connections
- 7) Supranational federation or blocs?

It may be of value here if I give you the following statement as to the activity, or non-activity, the rays, begging you to bear in mind that this statement refers only to our Earth and its evolutions:

Ray One-----Not in manifestation.

*Ray Two -----In manifestation since 1575 A.D.

*Ray Three-----In manifestation since 1425 A.D.

Ray Four -----To come slowly into manifestation after 2025 A.D.

*Ray Five-----In manifestation since 1775 A.D.

Ray Six-----Passing rapidly out of manifestation. It began to pass out in 1625 A.D.

*Ray Seven-----In manifestation since 1675 A.D.

These are of course all lesser cycles within the influence of the sign Pisces. You will see that four rays are in manifestation at this time—the second, third, fifth, and seventh.

Bailey, Esoteric Psychology, pg. 26

...if we divide the map of the Old World into five parts—into Eastern, Central and Western Asia, Eastern and Western Europe, and Egypt—then we will easily perceive that **every 250 years, an enormous wave passes over these areas, bringing into each in its turn the events it has brought to the one next preceding. This wave we may call “the historical wave” of the 250 years’ cycle.** The reader will please follow this mystical number of years.

US compared to Russia

Russia is almost twice the size of the U.S.

Russia: 6.593 million sq. mi.

Russia population: 143 million

U.S.: 3.719 million sq. mi.

U.S. population: 319 million

Atlantean culture

Heights of luxury were reached in Atlantis of which we, with all our boasted civilisation, know nothing and have never achieved. Some faint traces of it have come to us from legends and from ancient Egypt, from archeological discovery and old fairy tales. There was a recurrence of pure Atlantean mischief and wickedness in the decadent days of the Roman Empire. Life became tainted by the miasma of unadulterated selfishness and the very springs of life itself became polluted. Men only lived and breathed in order to be in possession of the utmost luxury and of a very plethora of things and of material goods. They were smothered by desire and plagued by the dream of never dying but of living on and on, acquiring more and more of all that they desired.
