First Visualize the Light of the Christ infusing the cellular life whilst retaining the alignment via the head center

Now visualize the light of Christ moving through the emotional body and via the Heart Center infusing this body with Divine Love...moving out via the Heart Center and dissipating all emotional content beyond the Golden Sphere of (the group) Light Body

And visualize the Light of Christ infusing the concrete mind of the area of the Throat center and, via the Ajna center, moving and dissolving all lower thought forms out beyond the golden sphere of the group Light Body.

## *New Path for Humanity*

**Soul Therapy is a process which liberates the consciousness from a Lower to a Higher Point of Focus.**

**The Group Head Center is primarily responsible for providing Inspiration, Motivation and Direction.  
First Ray energy and Leadership**

First Ray energy and Leadership will challenge the head center personnel, as individuals and as a unit. They will be particularly susceptible to patterns of opposition, the old type of leadership, and resistance to and distortions of the new cooperative leadership. Fortunately we have methods of Treating those conditions. The methods of Soul Therapy

Techniques of transmutation and adjustment.

Soul therapy is used with treating individuals, a group Or Humanity as a whole, we always treat ourselves and accept awareness of and responsibility for setting in motion

the direction humanity will follow through the remainder of the Age. The new magic is based on the Creative Activity of the Soul. In

this higher frequency Creative Activity, the Spiritual Soul incarnate relates Divine Will with Substance, Substance with Divine Will, and brings the two into union for at-one-ment in the consciousness.
